Maths Puzzles: Cryptarithms, Symbologies and Secret Codes

Explore and solve encrypted maths puzzles, in which numbers are replaced by letters or symbols, with this free online course.

You'll explore: + Cryptarithms - puzzles where the digits have been replaced by letters. + Symbologies - puzzles where numbers are represented by symbols. + Mathematical operator puzzles - puzzles where the numbers are given, but the mathematical operator is missing (for example, what does the asterisk stand for in $*1320=6?$)

Through the course you will develop problem-solving skills, gain knowledge about the history, art and methodology of encrypted puzzles, and exercise your brain with fun challenges. Duration **3 weeks** Weekly study **4 hours**
